- Communication
- Team Collaboration
- Fast Learner
- Time Management

EDUCATION

UNIVERSITAS DJUANDA

2022 – Present

S1 Computer Science

LANGUAGES

- Indonesian (Native)
- English (Intermediate)

PROFESSIONAL SUMMARY

Final-year Computer Science student and self-taught Flutter/full-stack developer who has independently designed, built, and shipped 4 production mobile apps and 2 websites from concept to deployment. Comfortable owning the full product lifecycle architecture, state management, UI implementation, and post-launch iteration. Currently seeking a remote part-time/internship role to apply these skills in a real team environment while completing my degree.

PROJECTS

- VESTA - Personal Finance Tracker (Flutter, Hive, Provider) Offline-first finance app with calming "Whispering UI" — auth, dashboard, transactions, and stats charts fully shipped.
- ORBIT - Cosmic Memory Time Capsule (Flutter, Hive, CustomPainter) Letter-to-future-self app with an interactive galaxy UI (CustomPainter-based), fully offline by design; optimized for 60fps.
- KelomApp - Productivity & Task Management (Flutter, Riverpod, Drift) Gamified productivity app: kanban tasks, project timelines, Pomodoro focus mode, full glassmorphism UI.
- Lumora Coffee - F&B App + Website (Flutter + Next.js/TypeScript/Tailwind) Cross-platform coffee shop product: mobile ordering/loyalty app and animated marketing website from one rebrand.

WORK EXPERIENCE

- Content & Visual Design Lead — DPM, Universitas Djuanda (2024-2025)
- Field Data Program — Dinas Pendidikan Kota Bogor (2024)
